

Ring Act

The Ring Act and Singing Spectacular

This show has a wow factor second to none.

Two acrobatic performers, male and female are suspended in a steel ring, performing a contemporary Adagio, whilst being rotated against a Laser backdrop.

The audience, whilst watching this act are given the illusion of being in a tunnel of light and sound, as the laser, projecting from behind the ring, encapsulates the viewers 'into' the ring performance.

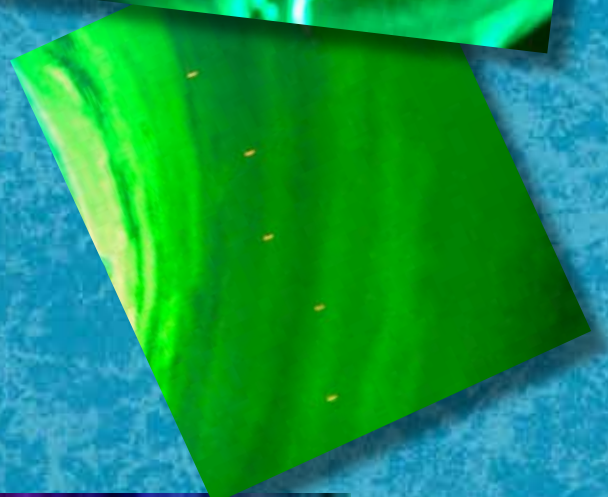

The show spectacular will feature vocalist Andy Klee, performing well known show-stopper songs applicable to theme and mood of the evening before and after the Ring Act, to entertain and delight the audience. The show together with Act and Singer will last 25 minutes.

Ring Dimensions:

2,4 x 2,4 Steel Structure to be placed 5 meters in front of the indoor bar area of Venue Kong Roast.

4 Meters behind the structure itself, a laser will be rigged. A Laser operator and Ring operator will be present during the performance. The Ring Act itself will last for 4,30mins.

The Ring will be brought into the Venue by means of the patio stairs entrance.
